

# Who does the United States Government require taxes? of their own children or of strangers?

Matt.17:25

Your government and pastor will probably use Romans 13 to keep you under their authority. Paul, throughout Romans 13, refers only to power justly exercised. He does not enter into the subject of tyranny and oppression, and this is the reason why he does not set limits to the obedience required; he is contemplating none other than the proper and legitimate use of power. Power is from God, the abuse of power is that which is evil in man. The higher powers are God's Law and Word. Thus if government submits to God's Word, then and only then, are you to be in subjection to government; Otherwise, you are to resist anti-Christ government.

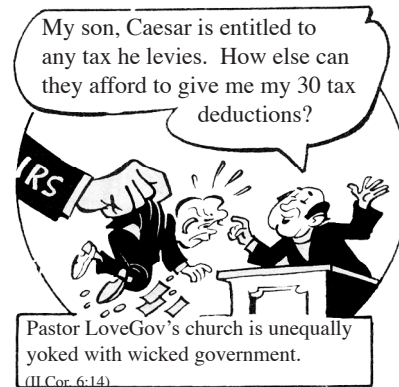

# Only Strangers pay taxes; the government's children tax exempt

**Q: Who are the government's children?**

**A: Your IRS 501[c][3] incorporated church**  
Why does the government give their "blessing" of tax exemption to your church? So that they can impose restrictions to silence you and your Pastor. Your IRS church cannot:

1. \*Attempt to influence legislation i.e.abortion, sodomy, etc.
2. \*Intervene in political campaigns.
3. \*Speak out against the U.S. Government and its policies.

\* Department of the Treasury-IRS Publication 1828 (9-94) cat. #21096G

Some of Pastor LoveGov's tax deductions are: housing, clothing, food, car, travel, medical, retirement, property, etc. Pastor LoveGov's church is a 501[c][3] organization, not an Organism (The Body of Christ). For attending a government church the IRS blesses the church goes by allowing them to write off their contributions.

No doubt your pastor will say: "Render to Caesar (government) the things that are Caesar's...", but he forgets to quote the remainder of the verse, "and to God the things that are God's." So what is government entitled to? Only an equal head tax! A head tax is a dollar amount Exo.30:15; the rich and the poor pay exactly the same amount, graduated income tax is ungodly socialism. The rich and the poor receive equal protection from government: life, liberty, and property, so they pay an equal tax. A head tax limits government, but a graduated tax creates a beast. Only God is entitled to a percentage (the tithe). When government requires a percentage tax it is claiming to be God.

One final word on "higher power Rom. 13:1" God, His Word, and Law are the Highest Power. To glorify Himself God Created:

1. Man
  - a. Man created the United States Government
  - b. Government created corporations (including your unequally yoked 501[c] [3] church).

The current tax system is ungodly, and until the Church separates itself from the state, we will never see a righteous tax system.

**"...choose you this day whom ye will serve..."**

Jos.24:15
